VECTOR

Conference Table

Let the sleek new Vector conference tables point your meetings in the right direction. The modern tapered base design allows for more leg room and includes a hidden trough underneath the table and cutouts on the interior of the legs to keep power cables completely out of view. Integrated tabletop power makes connectivity a breeze.

FEATURES

The modern tapered base design allows for more leg room and includes a hidden trough underneath the table and cutouts on the interior of the legs to keep power cables completely out of view.

The all-new chamfered edges give the Vector tables the look of a thin, lightweight top without sacrificing the sturdiness and functionality of a thicker tabletop.

The front of the unit includes (2) three-prong outlets with a 125V 12A rating, (2) USB charging ports, (1) Ethernet port, (1) VGA connection and (1) HDMI coupler.
